

Sara

#Sara: an automatic washcloth processor/stacker

Take the manual labor out of your washcloth processing line. #Sara automatically picks, stacks, and delivers neat stacks of washcloths. Pair it with #Eva for a labor-free automatic washcloth processing line. For additional versatility, the stacker can also be built with an integrated folding unit for an automatic face towel line.

Standard Features

- Picks, squares up and aligns face towels for flat stacking
- More than 1250 picks per hour
- Two picking heads for higher throughput
- Output for stacks to the left, to the right or to the rear side

Optional Features

- Folder unit for processing face towels in 1/2 or 1/4 folds
- Additional stacker modules for sorting different colors and sizes
- Recommended spare parts kit
